

CEDAR CREEK CHILD CARE CENTER

Hebo, OR

Cedar Creek Child Care Center was a daycare facility located in remote Tillamook County. The facility was faced with losing the possibility of losing their entire building and needed a quick and cost-effective solution. Utilizing modular construction to accommodate the urgent timeline the building and custom foundation were completed simultaneously. Child sized restroom facilities, custom floor coverings, a computer lab and child level cabinetry were added to create a learning environment for children at a variety of developmental stages. A set of locking double hall doors allows access to only a portion of the building for use by the community. By partnering with Modern, Cedar Creek was able to meet its tight timeline and increase its capacity for future growth and community outreach.

PROJECT HIGHLIGHTS

- The building has dimensions of 60'x120'.
- The building area was 7200 square feet.
- The foundation is Stem Wall.
