

ROBERT LOUIS STEVENSON SCHOOL

Pebble Beach, CA

Robert Louis Stevenson (RLS) School is a co-educational private boarding school in Pebble Beach, California. The school contacted Modern, looking initially for short term solutions for additional student housing. The ultimate result was a pair of single story dormitory buildings to house female students. The buildings had to blend in with the existing facilities, which included features like: cedar shake siding, site built gabled roofs, and wrap around porches with fire pits. Interior finishes included specialty flooring, sheetrock interior walls, custom closets, custom light fixtures. The facility included living quarters for the staff house mother. Shortly after Modern completed the installation the school broke ground on a multi story site built dormitory structure. Upon the completion of the new dormitory, the school decided that the facility Modern provided was so nice and blended into the campus so well that they elected to purchase it as well.

PROJECT HIGHLIGHTS

- The building has dimensions of 36'x72'.
- The building area was 2592 square feet.
- The foundation is Block and Level.
