

## WALLOWA VALLEY SENIOR LIVING

Enterprise, OR

Located in the remote Northeast Oregon community of Enterprise, this memory care and assisted living facility was designed to give the residents the feeling of living in a grand mountain lodge. Use of vaulted ceilings in community areas presents an atmosphere of spaciousness. The coordination of interior colors and materials touched on the western theme of this community – providing a bright stimulating environment for the residents. Twenty-six modules of varying widths and lengths were brought together with some small on-site framing to complete this structure.

Wallowa County's previous facility outgrew their previous facility, which no longer fit their needs. Modular construction was the answer; as the offsite construction allowed this desperately needed new facility to materialize. The client was able to maintain the size and aesthetics of the building, as well as address the tight budget.

### PROJECT HIGHLIGHTS

- The building has dimensions of 242'x60'.
- The building area was 14520 square feet.
- The foundation is Stem Wall.
